

## Sixteenth Symposium on Improving Building Systems in Hot and Humid Climates

**LEED® 2.2 NC Accredited Professional Test Prep workshop**  
Marriott at Legacy Town Center, Plano, Texas  
December 17, 2008

**Purpose:** The Symposium is hosting an eight-hour intensive preparation course for professionals planning to take the LEED test for New Construction and Major Renovation (NC) version 2.2. This is a Southface LEED NC Test Prep workshop course and will cover the six categories of the LEED 2.2 rating system, from Sustainable Sites to Innovation and Design Processes. Instructors will review the intent, requirements, issues and strategies associated with each of the credits, focusing on the level of knowledge you will need to pass the Exam.

Participants will also receive training on the integrated project management and documentation processes that are fundamental to the LEED program and will learn tips for working as LEED Accredited Professionals in the field. The training series will conclude with an overview of recommended study methods, exam-taking skills and practice questions for the LEED 2.2 accreditation exam.
